Act President's Remark

KATA PENGANTAR

Sambutan Pengganti Presiden

Anggota IIA Indonesia yang kami hormati,

Saya ingin menyampaikan terima kasih yang sebesar-besarnya kepada seluruh keluarga besar IIA Indonesia, khususnya para Anggota, Relawan, Komite Audit, Kantor Eksekutif dan semua anggota Board of Governors (BOG) yang telah memberikan kontribusi luar biasa bagi IIA Indonesia dan bagi kemajuan profesi. Semua yang telah dilakukan adalah upaya tim.

Kami tahu bahwa tahun-tahun mendatang kemungkinan besar akan juga mengalami berbagai disrupsi. Namun, kami telah belajar banyak selama 12 bulan terakhir yang mempersiapkan kami untuk menghadapi tantangan di masa depan.

Pada tahun 2020, karena pandemi yang menyebabkan ketidakpastian dalam usaha serta langkah-langkah kesehatan yang perlu kami junjung untuk menjaga keselamatan seluruh anggota IIA Indonesia dan staf Executive Office, rencana tahunan mengalami berbagai perubahan - baik dalam hal jenis kegiatan yang akan dilakukan maupun dalam cara pelaksanaan kegiatan. Kami melakukan prioritisasi ulang dan penyelerasian kembali aktivitas dan tujuan yang direncanakan agar sesuai dengan keadaan - dengan tetap berusaha untuk memberikan layanan terbaik kepada semua anggota.

Disrupsi dan perubahan yang dialami ini tentu berdampak pada kinerja operasional. Beberapa aktivitas yang tetap dilaksanakan, diselenggarakan dengan format online, termasuk penyelenggaraan konferensi nasional, berbagai pelatihan, dan aktivitas sosialisasi serta advokasi.

Respected members of IIA Indonesia,

I would like to express my deepest gratitude to the entire IIA Indonesia family, especially the Members, Volunteers, Audit Committee, Executive Office and all members of the Board of Governors (BOG) who have made tremendous contributions to IIA Indonesia and to the advancement of the profession. All that has been done is a team effort.

We know that the coming years are likely to experience various disruptions as well. However, we have learned a lot over the past 12 months which prepares us for the challenges ahead.

In 2020, due to a pandemic that causes uncertainty in business as well as health measures that we need to uphold to safeguard the safety of all IIA Indonesia members and Executive Office staff, the annual plan is undergoing various changes - both in terms of the types of activities to be carried out and in the way they are implemented. activities. We re-prioritize and realign planned activities and objectives to suit the circumstances while striving to provide the best possible service to all members.

The disruptions and changes experienced have certainly had an impact on operational performance. Several activities are still being carried out, held in an online format, including organizing a national conference, various trainings, and socialization and advocacy activities.

Dalam rangka mendukung anggota dalam masa sulit ini, biaya pelatihan pun disesuaikan menjadi cukup rendah, agar anggota tetap bisa mendapatkan pendidikan berkelanjutan dan mendapatkan layanan yang baik. Penyesuaian dari aspek operasional (dan komersil) tersebut juga berdampak pada kinerja keuangan IIA Indonesia.

Selain aktivitas yang dilakukan di tingkat nasional, kami juga terus berkoordinasi dan bekerjasama dengan IIA Global dalam berbagai hal, termasuk dalam penguatan executive office, strategi operasional, serta lainnya. Salah satu capaian dari kerja keras Pengurus adalah dengan akan adanya sertifikasi Indonesia Internal Audit Practitioner (IIAP) yang akan diluncurkan di tahun 2021.

Semoga dengan telah hadirnya vaksin, ekonomi dapat berangsur membaik, IIA Indonesia dapat memberikan layanan yang lebih optimal kepada seluruh anggotanya.

Penyampaian laporan tahun 2020 ini merupakan penyampaian laporan tahunan ketiga oleh kepengurusan BOG IIA Indonesia periode 2018-2021 yang akan berakhir masa baktinya pada pelaksanaan General Membership Meeting 2021. Meskipun perjalanan dan pembatasan lainnya diberlakukan untuk mencegah penyebaran virus membuat saya dan seluruh rekan-rekan BOG IIA Indonesia tidak bisa bertemu langsung dengan anggota selama setahun terakhir seperti yang kami inginkan, saya atas nama BOG IIA Indonesia mengucapkan terimakasih atas dukungan semua pihak kepada IIA Indonesia, dan semoga anggota IIA Indonesia diberikan kesehatan dan kesuksesan.

In order to support members in this difficult time, the adjusted training costs are low enough, so that members can continue to receive continuing education and receive good services. These adjustments from operational (and commercial) aspects also had an impact on IIA Indonesia's financial performance.

Apart from activities carried out at the national level, we also continue to coordinate and integrate with IIA Global in various ways, including strengthening the executive office, operational strategies, and others. One of the achievements of the Management's hard work is the Indonesia Internal Audit Practitioner (IIAP) certification which will be launched in 2021.

Hopefully with the presence of vaccines, the economy can gradually improve, IIA Indonesia can provide more optimal services to all its members.

The submission of this 2020 report is the submission of the third annual report by the management of BOG IIA Indonesia for the 2018-2021 period which will end its tenure at the 2021 General Membership Meeting. Even though travel and others are enforced to prevent the spread of the virus that makes me and all BOG IIA colleagues Indonesia has not been able to meet the members in person during the last period as we wanted, I am on behalf of BOG IIA Indonesia who thank you for the support of all parties to IIA Indonesia, and I hope the members of IIA Indonesia will be given health and success.

BoG dengan dukungan semua pihak khususnya komunitas profesi berhasil meraih pertumbuhan tertinggi dalam jumlah anggota pada tahun 2018. Sedangkan jumlah member tertinggi tercatat pada bulan September 2019 sebanyak 3.661.

Kemudian dalam tahun 2020 ini seiring dengan resesi perekonomian dunia dan nasional maka berdampak pada renewal keanggotaan. Jumlah anggota menurun secara drastis sampai mencapai angka terendah 2.436

Seiring dengan semaraknya program di tengah keterbatasan secara sosial, jumlah anggota mulai menunjukkan rebound dalam tiga bulan terakhir. Dalam tiga bulan terakhir jumlah anggota Kembali meningkat sehingga berjumlah 2.583.

Dalam keterbatasan sosial dan resesi, IIA Indonesia terus berupaya menjalankan sejumlah program yang didedikasikan untuk anggota dan profesi. The Board of Governors and the executive office formulate and administer a number of programs covering and addressing members and the professional community. The diversity of activities and programs resulted in a significant increase in the number of members in the first 3 years of government and continued in the following two years. BoG with the support of all parties, especially the professional community, managed to achieve the highest growth in the number of members in 2018. Meanwhile, the highest number of members was recorded in September 2019 at 3,661.

PENINGKATAN KOMPETENSI DAN PROFESIONALITAS

IIA Indonesia senantiasa berupaya untuk meningkatkan kualitas kontribusi profesi Internal Audit di organisasi manapun mereka berkarya. Untuk itu IIA Indonesia merumuskan sejumlah program yang ditawarkan kepada para profesional sehingga dapat memilih sesuai dengan kebutuhan. Program ini didesain dalam bentuk pelatihan, lokakarya, dan forum diskusi.

Dengan keikutsertaan para profesional dalam program peningkatan kompetensi yang berkelanjutan diharapkan kontribusi profesi semakin meningkat sesuai dengan ekspektasi para pemangku kepentingan. Kontribusi profesi akan sesuai harapan karena BoG melalui Komite Training telah merumuskan dan menetapkan sejumlah topik yang relevan dan terkini.

Dalam tahun 2020 ini kegiatan peningkatan kompetensi dilaksanakan umumnya secara daring untuk menyesuaikan dengan instruksi pemerintah melakukan social distancing. BoG IIA Indonesia mengapresiasi sambutan dan dukungan dari para anggota sehingga selama tahun 2020 berhasil terselenggara 87 kali kegiatan dengan jumlah peserta mencapai 1.660 orang dari berbagai industry.

Upaya peningkatan kompetensi dalam tahun 2020 diperluas melalui penandatanganan kerja sama dengan Ikatan Komite Audit Indonesia. Kerja sama ini berfokus pada peningkatan kompetensi Bersama dua pilar penjaga tata Kelola di organisasi yang saling berinteraksi secara erat dan sinergi yaitu audit internal dan komite audit. Kerja sama ini ditanda tangani pada tanggal 22 Juni 2020 melalui kegiatan webinar Bersama.

OPENING COMPETENCY AND PROFESSIONALITY LEVELS

IIA Indonesia always strives to improve the quality of the contribution of the Internal Audit profession in any organization they work. For this reason, IIA Indonesia formulates a number of programs that are offered to professionals so that they can choose according to their needs. This program is designed in the form of training, workshops and discussion forums.

With the participation of professionals in continuous competency improvement programs, it is hoped that the contribution of the profession will increase according to the expectations of the stakeholders. The professional contribution will be as expected because BoG through the Training Committee has formulated and determined a number of topics that are relevant and up to date.

In 2020, competency improvement activities are generally carried out online to comply with government instructions for social distancing. BoG IIA Indonesia appreciates the welcome and support from the members so that during 2020 there were successfully held 87 activities with the number of participants reaching 1,660 people from various industries.

Efforts to increase competence in 2020 were expanded through the signing of a collaboration with the Indonesian Audit Committee Association. This collaboration focuses on increasing competence together with the two pillars of governance in the organization that interact closely and synergize with each other, namely internal audit and the audit committee. This collaboration was signed on June 22, 2020 through a joint webinar.

TRANSLASI

IIA Indonesia kembali menjalankan kegiatan utama yaitu melakukan translasi atas produk IIA Global. Translasi ke dalam Bahasa local ini bertujuan agar professional Auditor Internal Indonesia selalu mendapatkan pedoman yang relevan dan terkini dalam Bahasa lokal sehingga mempercepat dan meningkatkan pemahaman terhadap ketentuan atau pedoman terkini tersebut.

Proses kegiatan translasi merupakan kegiatan yang luar biasa karena melibatkan volunteer sebagai translator utama dan kemudian direview oleh Komite Translasi dan kemudian dilakukan penelaahan akhir oleh Quality Control BoG IIA Indonesia. Dengan review berjenjang dalam proses translasi ini menjadikan produk translasi berkualitas tinggi dan standar serta konsistensi dalam translasi kata menjadi terjaga. Konsistensi translasi akan terjaga karena IIA Indonesia telah menterjemahkan glossary.

Kemudian dalam tahun 2020 ini BoG IIA Indonesia telah mentranslasi sejumlah produk yang strategis seperti panduan audit jarak jauh di masa Covid 19, model tiga lini, dan kerangka kompetensi auditor terkini. Terkait dengan ujian sertifikasi profesi, dalam akhir tahun 2020 sejumlah volunteer IIA Indonesia dan BoG terseleksi telah aktif terlibat dalam translasi ujian Internal Audit Practitioner (IAP).

TRANSLATION

IIA Indonesia is back to carrying out its main activity, namely translating IIA Global products. This translation into the local language aims to ensure that the Indonesian Internal Auditor professionals always receive relevant and up-to-date guidelines in the local language so as to accelerate and improve understanding of the latest provisions or guidelines.

The translation activity process is an extraordinary activity because it involves volunteers as the main translator and then it is reviewed by the Translation Committee and then a final review is carried out by the Quality Control BoG IIA Indonesia. With a tiered review in the translation process, the translation products are of high quality and standard and consistency in word translation is maintained. Translation consistency will be maintained because IIA Indonesia has translated the glossary.

Then in 2020 BoG IIA Indonesia has translated a number of strategic products such as a remote audit guide for the Covid 19 period, a three-line model, and the latest auditor competency framework. Regarding the professional certification exam, at the end of 2020 a number of selected IIA Indonesia and BoG volunteers have been actively involved in the translation of the Internal Audit Practitioner (IAP) exam.
